

IMPORTANT NEWS ABOUT MILAIR -

Camp Atterbury now provides a complimentary commercial charter flight for departing Contractors. In support of a direct mandate from the AMC Headquarters and the Principal Assistant Responsible for Contracting (PARC) for the US Army, we now manifest all deploying Contractors Authorized to Accompany the Force (CAAF) on our flight directly into the CENTCOM Area of Operation from Indianapolis, IN.

This mandatory usage of MILAIR delivers, on average, the deploying personnel to their final destination in 24-48 hours after arriving in Kuwait. The Policy with the mandate was published on 24 OCT 11. Please read the [PARC Policy Alert 12-01](#). Baggage restrictions are listed below for MILAIR:

- Contractors: 2 Checked Bags, 1 Carry-on
 - 70lb. Weight Restriction Per Checked Bag
 - 50lb. Weight Restriction for Carry-On
- DoD/LEP/Linguist: 3 Checked Bags, 1 Carry-on
 - 70lb. Weight Restriction Per Bag
 - 50lb. Weight Restriction for Carry-On

*No Tough Boxes authorized for baggage check (i.e. Pelican Case, Gorilla Box, Tuff Box etc)

****NOTE - The authorized issued equipment on average weighs 40-50lbs. Consider this for planning purposes when preparing for flight in addition to your personal clothing or gear. This is counted as part of your authorized baggage restrictions.***

If you have extra equipment (mission essential i.e. tools, machinery etc), please plan to ship these items ahead of your expected departure. Camp Atterbury has a post office on the installation to meet all accommodations.
